

Victor Follet

Senior Frontend & Full-Stack Engineer

Tel Aviv-Yafo, Israel | +972-53-708-5958 | follet.victor@gmail.com | LinkedIn | GitHub

SUMMARY

Senior frontend and full-stack engineer with 15+ years of experience building AI commerce, fintech, SaaS, and high-traffic e-commerce products. Specialized in React, TypeScript, frontend architecture, design systems, and performance, with hands-on experience across Node.js, APIs, databases, and AWS. Led modernization, platform, payments, and integration initiatives at companies including Tolstoy, Bright Data, Mail.ru Group, and Yandex.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Redux Toolkit, Preact, React Native
- **Architecture:** Design systems, microfrontends, Webpack Module Federation, frontend performance, automated testing
- **Backend & Data:** Node.js, Express, REST APIs, PostgreSQL, MongoDB, DynamoDB
- **Cloud & Delivery:** AWS, Lambda, Docker, Kubernetes, GitLab CI, CI/CD
- **AI & Integrations:** AI agent workflows, third-party integrations, integration automation

EXPERIENCE

Nov 2024 - Present | Senior Full Stack Engineer | Tolstoy | Tel Aviv-Yafo, Israel

- Build full-stack features for Tolstoy's AI commerce platform using React, TypeScript, AWS Lambda, DynamoDB, and PostgreSQL.
- Design and develop AI Studio infrastructure supporting the creation and maintenance of 40+ third-party integrations.
- Build reusable design-system components and shared UI foundations for AI-assisted React and TypeScript product workflows.

Feb 2024 - Nov 2024 | Senior Full Stack Developer | Bright Data | Netanya, Israel

- Led development of Toolip.io, a React and TypeScript SaaS platform for managing proxy infrastructure.
- Reduced page-load time by 25% through frontend performance improvements.
- Built payment workflows integrating Stripe, PayPal, and BlueSnap across React and Node.js services.

Jul 2022 - Feb 2024 | Senior Full Stack Developer | Tenengroup | Tel Aviv-Yafo, Israel

- Built and optimized React shopping-cart and checkout experiences for the MYKA and Oak & Luna international e-commerce brands, reducing cart abandonment by 20%.
- Architected a reusable Next.js data-access and API layer for a high-traffic e-commerce platform.
- Partnered with .NET teams on API contracts, integration patterns, and end-to-end delivery.

Feb 2021 - Jul 2022 | Chief Frontend Developer | Luxoft | Moscow, Russia

- Led a microfrontend migration using Webpack Module Federation, enabling independent deployment of product modules and faster delivery.
- Built financial-reporting interfaces for VTB Bank using React, TypeScript, Redux Toolkit, and Redux Saga, improving UI consistency and reporting accuracy.

Mar 2019 - Feb 2021 | Senior Full Stack Engineer | Mail.ru Group (now VK) | Moscow, Russia

- Built a GitLab CI, Docker, and Traefik pipeline that created branch-specific payment environments, shortening cross-functional feedback cycles by 30%.
- Developed payment interfaces for My.com and VK Pay using Preact, Redux, and TypeScript.
- Improved payment-processing performance by 20%, strengthening responsiveness across customer-facing payment flows.

Jan 2017 - Mar 2019 | Interface Developer | Yandex | Moscow, Russia

- Modernized the Yandex Disk frontend architecture using React, Redux, and ES6, reducing page-load time by 20%.
- Built a React Native embedding module for the Global Notification Center, enabling real-time alerts across five platforms.
- Expanded Jest test coverage and reduced production regressions across Yandex Disk.

Aug 2013 - Jan 2017 | Senior Frontend Developer (JavaScript) | Idea Platform | Moscow, Russia

- Designed and built the company's AngularJS product frontend, contributing to three new client engagements.
- Built mobile and backend functionality using NativeScript, Angular, Java EE, and JAX-RS.
- Hired and mentored two developers while establishing automated frontend testing practices with Karma and Protractor.

Feb 2010 - Jul 2013 | Earlier Financial Technology Experience

- Development Consultant at Systematica Business Software; Financial Engineer at Allied Testing.
- Built financial integrations, reporting, option-pricing functionality, and QA workflows for banking and market-data systems, including Renaissance Capital back-office software and Thomson Reuters Eikon.

EDUCATION

2004 - 2009 | Lomonosov Moscow State University

Faculty of Computational Mathematics and Cybernetics | Degree in Applied Mathematics and Computer Science
